

SIX KEYS TO RECESSION PROOFING YOUR BUSINESS:

An Introduction to EOS®

**JOIN US for a workshop:
January 25th—10:00am**

Is your business recession ready? With economic uncertainty on the horizon, it's important to ensure your business is prepared. While economic slowdowns can have a dire effect on business, they provide some of the best opportunities for growth. This workshop, based on a proven system, will help you evaluate your company's health, show you how to strengthen your business and equip you with simple tools you can use right way.

The Entrepreneurial Operating System®

The Entrepreneurial Operating System is designed to help leaders confront business challenges and thrive...regardless of the economic times.

Led by Certified EOS Implementer® Brent Oetken, this live event will help you:

- **Understand** the six keys to build a truly great organization
- **Learn** how to get everyone focused on achieving a clear company vision
- **Begin** to instill discipline and accountability throughout the organization
- **Roll up** your sleeves and confront organizational issues head-on
- **Strengthen** your business and produce powerful results

Who should attend?

Open-minded and growth-oriented owners and leaders of businesses with 10 or more employees who want to take their company from good to GREAT.

Registration for this FREE Workshop is now open!

What is the Entrepreneurial Operating System?

Even the most successful entrepreneurs occasionally find running a business more challenging than they expected. Many work long hours and get less return on their investment of time and money than they would like. Most entrepreneurs regularly experience one or more of these frustrations:

- **Lack of control** — over time, markets or the company
- **People** — don't listen, understand or follow through
- **Profit** — there's not enough of it
- **Growth** — they can't seem to break through to the next level

The Entrepreneurial Operating System (EOS) is designed to help owners, leaders, and managers of entrepreneurial companies address common frustrations. Using a simple set of powerful, practical tools, leaders can learn to run their businesses more efficiently and effectively to experience more consistent growth — and have more fun!

THE EOS MODEL®

Traction: Get a Grip on Your Business

by Gino Wickman

TRACTION introduces the Entrepreneurial Operating System, a simple yet powerful way to run your company that will give you and your leadership team more focus, growth, and enjoyment.

"This book is a must for any business owner and their leadership team. Traction provides a powerful, practical, and simple system for running your business."

–DAN SULLIVAN, President and Founder, The Strategic Coach

What others are saying about EOS

"Prior to implementing EOS, I could never truly take time off because I always worried that I wouldn't have a company when I got back. Now I'm happy to say that I'm able to go on vacation and have confidence that my team has everything under control."

– MICHAEL RICKABAUGH
Livonia Tool & Laser

"Before we got started with EOS, the company was doing well, but I was becoming a bottleneck to our growth because I couldn't add any more hours to the day. Now we're in a really great place. I have a strong leadership team aligned to our vision, and I've gotten my life back—and we were just named Michigan Manufacturer of the Year for 2018 by the Michigan Manufacturers Association!"

– JIM RICHARDS, Total Security Solutions
